

Mountains, Rocks Trees and Foliage

Painting and drawing mountains, rocks, trees and leaves can seem challenging because of the myriad of perceived details that are needed to make them look realistic. In this class we will look at various ways to tackle Mother Nature's exterior decor and grow our skills to fit our individual styles into the artistic landscape.

For this class you will need:

Paper, pencil, erasure, water based paints, mixing tray, paint brushes, 2 jars of water, rag.

OR: Magazines, scissors and glue (if you wish to collage instead!)
