

Let's Make Stuff!-With d'Archi Bruno

Class #16

In Living Color

Color is the artistic element used to create a mood and to express or arouse emotion in the viewer. Colors can have a profound effect on your work and are often one of the most exciting components of a painting. Therefore, choosing the right color palette is really important! In this class we will be looking at how complementary contrast colors help to add drama and depth, some basic color theory and how to create a pleasing color pallet. So go grab your arty gear together...and let's take a look at the world through a kaleidoscope of color!!
