

## Let's Make Stuff! -with d'Arci Bruno

Class #17

### Landscapes-HO!

**Landscape art** portrays the great outdoors; scenes of rolling hills or meadows, fields, mountains, lakes, the seaside, and beyond. Landscapes are one of the principal genres of subject in Western art, and these scenes of the natural world can be real or invented, and humans, (if introduced at all) typically serve as minor elements in the work. Go grab some art supplies, a photograph or magazine or just look out 'yer window and let's have some fun together!

*David Hockney-Pearblossom Highway, 1986 Photo Collage*

**For this class you will need:** Photo or image of a landscape for reference. Pencil, paper, water based paint, brushes, water cups (2) or collage materials, glue, scissors.
