

Let's Make Stuff! With d'Arci Bruno

Class #21

The EYES Have It! (and the Nose, Mouth and Ears)

Human portraits can be challenging, and capturing the right expression is crucial, especially the eye, nose and mouth features where the slightest alteration of line or shape can completely alter the attitude or appearance of your subject.

In this class we will look these pesky parts right in the proverbial eye, and nose around in all the various ways other artists have rendered these important elements of facial characterization. Let's face these tricky bits together!

For this class you will need pencil, paper, erasure, a photo of a face and a mirror!!

“Never Tell” Mixed media on panel d'Arci Bruno 2009
