

Let's Make Stuff-with d'Archi Bruno

Class #23

Put a Bird on it!

Birds are synonymous with flight, and are a potent symbol of many a person's hopes and dreams. Birds often connote both the human and the divine spirit in their soaring freedom of movement, while linking the earth, sky and water. In this class, we will fly through popular bird art through the ages and swoop in on the different techniques and styles that artists use to render these captivating, twittering *avems* that touch our hearts.

For this class you will need to search your nest for your favorite art supplies, paper and a pencil!
