Digital Access (Free and Low Cost)	<p>National Digital Inclusion Alliance (Includes information on the Affordable Connectivity Program ACP)</p>	<p>National Digital Inclusion Alliance advances digital equity by supporting community programs and equipping policymakers to act. Believing that everyone has the opportunity to use technology to live, learn, work and thrive, NDIA occupies a unique role connecting organizations from across the country engaged with technology and broadband development issues.</p> <p>To meet the needs of low-income consumers, some Internet Service Providers (ISPs) offer discount broadband plans. With the launch of the Affordable Connectivity Program (ACP), the number of low-cost offerings has increased rapidly and continues to grow. While greater choice for low-income consumers is a positive, varying costs, eligibility, and quality of service can make it challenging for digital inclusion practitioners, let alone individual customers, to understand which plans can best meet their needs.</p>	<p>https://www.digitalinclusion.org/free-low-cost-internet-plans/</p> <p>Check out the Affordable Connectivity Program here: https://www.digitalinclusion.org/policy/affordable-connectivity-program/</p>
Digital Access (Free and Low Cost)	<p>Xfinity Internet Essentials (Free and low cost ISP)</p>	<p>Free Internet for Eligible Households. See if you qualify for Internet service for FREE.
